FOR IMMEDIATE RELEASE

### **GDC Celebrates 15 Years**

Global Data Consultants, LLC (GDC), a leading provider of information technology in the Quad-State area of Pennsylvania, Maryland, Virginia, and West Virginia, is celebrating its 15<sup>th</sup> Anniversary. GDC was established in 1995 with a focus on application development by Gregory D. Courtney, GDC's founder. Like any new company in a competitive market, the first few years are spent trying to find the market niche and solidify the business vision that would enable GDC to grow and prosper.

Recognizing that IT is an industry that is competitive and constantly changing, GDC soon realized the key to growing was to understand the IT Services Industry. Refining these fundamental business principles - employ the best talent, excelling in the delivery of technical services, and remain focused on customer satisfaction. "I'm very excited about celebrating our 15<sup>th</sup> Anniversary in business and I look forward to celebrating future milestone anniversaries as we continue to serve our customers and grow as an organization," stated Gregory D. Courtney, President & CEO of GDC.

After 15 years, those fundamental business principles have proven to be a success. GDC now employs 130 employees, has expanded into York, Harrisburg, and Pittsburgh, PA, Hagerstown, MD, and Winchester, VA, with plans to further expand into other markets in 2010. "We attribute our growth and success to the high quality of people we hire, and the strong relationships those employees have built with our customers. Without either of those we probably wouldn't be here today," commented Dennis C. Coons, Executive Vice President.

"We have achieved success because we are committed to meeting our customer's requirements by delivering error-free solutions on time, every time," commented Thomas J. Trgovac, Executive Vice President & General Counsel.

Global Data Consultants, LLC., has been a leading Information Technology service provider since 1995. With experienced and certified consultants, they provide services in the areas of application development; networking and infrastructure; desktop support; 24/7 technical helpdesk; project management; recruiting and staffing; and business process consulting. These services are provided to companies both locally and internationally within the manufacturing, distribution, dealership, finance, healthcare, insurance, and retail vertical markets.
